RATED CAPACITIES AND STACKING HEIGHTS

(shown in 1,000 kg.)

NOTES:

Specifications are affected by the condition of the vehicle and how it is equipped, as well as the nature and condition of the operating area. Inform your dealer of the nature and condition of the intended operating area when purchasing your Hyster® truck.

- From face of front tyres. Deduct 100mm for loadcentre from front side of Stabilizer (1) when applicable.
- For CH models only: With optional P(owered) P(ile) S(lope) function: deduct 310mm (2) (3) Full suspension seat in depressed position
- (5) These data are with the container carried 500mm in front of the wheels (load centre 1720mm).
- Stacking aisle width is based on the VDI standard calculation as shown on illustration. (6) The British Industrial Truck Association recommends the addition of 100 mm to the total clearance (dimension a) for extra operating margin at the rear of truck.
- Gradeability figures are provided for comparison of tractive performance, but are not (7) intended to endorse the operation of vehicle on the stated inclines. Add 2 dB(A) for option with additional cab fan.
- (8)

All capacities are according to EN1459.

All specifications and capacities are valid for trucks equipped with a Hyster[®] container handling spreader for handling ISO container.

NOTICE:

Care must be exercised when handling elevated loads. Operators must be trained and must read, understand and follow the instructions contained in the Operating Manual. All values are nominal values and they are subject to tolerances. For further information, please contact the manufacturer

Hyster products are subject to change without notice.

Lift trucks illustrated may feature optional equipment. Values may vary with alternative configurations.

CERTIFICATION: Hyster lift trucks meet the design and construction requirements of B56.1-1969, per OSHA Section 1910.178(a)(2), and also comply with the B56.1 revision in effect at time of manufacture. Certification of compliance with the applicable ANSI standards appears on the lift truck. Performance specifications are for a truck equipped as described under Standard Equipment on this Technical Guide. Performance specifications are affected by the condition of the vehicle and how it is equipped, as well as by the nature, condition of the operating area, proper service and maintenance of the vehicle. If these specifications are critical, the proposed application should be discussed with your dealer.

NOTE: Specifications, unless otherwise listed, are for a standard truck without optional equipment.

Specification data is based on VDI 2198.

	5-7	Gradeability - 1.6 km/h, with / without load (7)		%	26	31	25	31	21	30	20	29		

(1) From face of front tyres. Deduct 100 mm for loadcentre from front side of Stabilizer when applicable

(2) For CH models only: With optional P(owered) P(ile) S(lope) function: deduct 310 mm

(3) Full suspension seat in depressed position

(5) These data are with the container carried 500 mm in front of the wheels (loadcentre 1720 mm)

(6) Stacking aisle width is based on the VDI standard calculation as shown on illustration. The British Industrial Truck Association recommends the addition of 100 mm to the total clearance (dimension a) for extra operating margin at the rear of truck.

(7) Gradeability figures are provided for comparison of tractive performance, but are not intended to endorse the operation of vehicle on the stated inclines.

INTERMODAL HANDLER SPREADER

SPREADER FOR BULK LOAD HANDLING ISO CONTAINER TIPPING SPREADER

FRONT END EQUIPMENT <

STRONG PARTNERS. TOUGH TRUCKS." FOR DEMANDING OPERATIONS, EVERYWHERE.

Hyster[®] supplies a complete range of warehouse equipment, IC and electric counterbalanced trucks, container handlers and reach stackers. Hyster[®] is committed to being much more than a lift truck supplier.

Our aim is to offer a complete partnership capable of responding to the full spectrum of material handling issues: whether you need professional consultancy on your fleet management, fully qualified service support, or reliable parts supply, you can depend on Hyster[®].

Our network of highly trained dealers provides expert, responsive local support. They can offer cost-effective finance packages and introduce effectively managed maintenance programmes to ensure that you get the best possible value. Our business is dealing with your material handling needs so you can focus on the success of your business today and in the future.
